

## Referral Rewards Program

### Get Paid for Referring New Customers To Us!

#### How It Works...

It's simple – Ask your friends, family and co-workers who they use when they have computer or networking problems and then rave about how SherpaData provides you or your company with exceptional IT support.

**If they become a paying customer, we'll give you a cash reward**

#### What is the Cash reward?

- **\$25 per new Residential Customer** – You get paid when we book a billable service call.
- **\$75 per new Business Customer** - You get paid when they sign on as a new business customer. (it's up to us to close the deal)
  - The referred new business client will automatically get a valuable service – a free Network Health and Security Assessments including detailed reports – valued at over \$250. This provides incentive to them and also provides you with something you can encourage your referral with to set up the appointment.

#### What are the Requirements?

- 1- The referred business / residential customer must be located in Southeastern Pa.
- 2- The referred business / residential customer is not an active customer of SherpaData.
- 3- The referred business is at minimum a 3 person company.

- 4- No referral reward is given out if the person referred does not want a meeting or has no current interest in IT support services.
- 5- In other words, the lead needs to have a genuine current interest in meeting with and talking to SherpaData about their IT support.

**What does SherpaData need for you to get your reward?**

- ✓ If the initial contact is from the referred person, they tell us the name or phone number of the person who referred them to us (you).
- ✓ If the initial contact is coming from you, you need to tell us the name and phone number of the referral who is expecting our call.
- ✓ You get quarterly payouts via mailed check or if you prefer, we can credit your next bill if you are a current customer.

**How do I send a referral to SherpaData?**

1. Give us a call at 610-590-0286
2. Email us at [support@sherpadata.com](mailto:support@sherpadata.com)
